PROFESSIONAL SUMMARY

Computer Network and Telecommunication Engineering (TJKT) student with a national AI competition award (1st Place Bengkulu Province, Top 15 National at LKS 2026) and hands-on experience building AI applications, Linux servers, and enterprise networks. Seeking internships and roles in network engineering, IT infrastructure, and applied AI.

EDUCATION

SMKN 1 Kota Bengkulu — Computer Network & Telecommunication Engineering (TJKT) 2024 – 2027

Class XI TJKT 1 · Expected graduation 2027

- Relevant coursework: Cisco routing & switching, Linux administration, server infrastructure, cybersecurity, web development.

PROJECTS & EXPERIENCE

JERNIH. — AI Civic Platform (National LKS 2026 Competition) 2025 – 2026

Data Scientist & AI Developer · JERNIH Team (5 members), SMKN 1 Kota Bengkulu

- Engineered a multimodal AI civic assistant with a 4-Tier Graceful Fallback System (Groq Llama 3.1 70B → Gemini 1.5 Flash → OpenRouter → offline rule-based), achieving zero-downtime operation across global API clusters.
- Built 8 integrated modules: RAG-powered Civic Copilot, Hoax Checker, Action Plan Generator, Policy Simulator, Knowledge Graph, OCR Smart Scanner, 3D Predictive Maps (PyDeck), and Architecture Viewer.
- Implemented responsible-AI safeguards: RAG with temperature 0.2, centralized input sanitization, and automatic failover under API rate limits (<1.5s switch time).
- Result: **1st Place Bengkulu Province** and **National Rank #15** (score 87.13) at LKS Dikmen 2026, Puspresnas Kemendikdasmen.
- Stack: Python, Streamlit, LangChain, ChromaDB, PyDeck, NetworkX, Pandas.

Class 12 TJKT 1 Dedicated Server 2025 – 2026

Systems Administrator · SMKN 1 Kota Bengkulu

- Assembled a high-throughput rack server for Class 12 TJKT 1: component assembly, thermal & RAM diagnostics.
- Configured RAID 1 disk mirroring for zero data loss and deployed Linux server OS with kernel security hardening.
- Set up local DNS routing and web services to host class lab projects with stable, zero-downtime operation.

- Designed a multi-VLAN enterprise network (Management, Staff, Server Farm, Guest Wi-Fi) with OSPF dynamic routing, DHCP relay, and strict ACL security boundaries in Cisco Packet Tracer.

HONORS & AWARDS

- **1st Place — LKS Dikmen 2026 Artificial Intelligence Exhibition**, Bengkulu Province (Kemendikdasmen Puspresnas).
- **Top 15 National Finalist (Rank #15, Score 87.13)** — LKS Dikmen 2026 AI Exhibition, Indonesia (Official Letter No. 1365/B/H3/PN.00/2026).

CERTIFICATIONS

- Cisco Networking Essentials — Cisco Networking Academy (verified credential).
- Cybersecurity Fundamentals — Network Security Pathway.
- Google IT Support Professional Certificate — in progress (Linux administration, diagnostics, domain management).

SKILLS

Networking

- Cisco routing & switching
- VLAN, OSPF, DHCP, ACL
- IPv4/IPv6 subnetting
- Basic cybersecurity

Operating Systems

- Windows 10/11
- Linux (Kali, Debian, Ubuntu)

Systems & Security

- Bash scripting
- RAID arrays
- Server hardening
- Local DNS & web services

Programming & Web

- Python
- HTML5, CSS3, JavaScript (ES6+)
- Streamlit, Bootstrap 5
- Git/GitHub

AI & Data

- LangChain & RAG pipelines
- LLM orchestration (Groq, Gemini, OpenRouter)
- ChromaDB, PyDeck, NetworkX

Soft Skills

- Problem solving
- Analytical thinking
- Team collaboration
- Communication
- Fast learner

LANGUAGES

- Indonesian — Native
- English — Intermediate
